

ELENA REVICHEVA

Russian–English Bilingual Expert

native Russian, published author in both languages

aipa@aideazz.xyz · +507 616 66 716 · [LinkedIn](#) · [GitHub](#) · aideazz.xyz/portfolio

Full-time or contract · Remote worldwide or on-site in Panama City · UTC-5

SUMMARY

I design intelligent systems and the experience around them — from the agents that run a business to the films they make.

Native Russian speaker, born and educated in Russia, who has written, published and worked professionally in Russian for over a decade, and who works in English every day. I listen for what makes speech sound native — stress, intonation, rhythm and register — the same things I shape in verse. And I write every judgement down in plain English, with the reason, so another reviewer can check it.

EXPERIENCE

Founder & AI Product and Solutions Lead — Aldeazz.xyz · Panama / Remote · 2025–Present

Founder-led AI lab. I design, build and operate its production AI systems end to end — the architect, the reviewer and the on-call.

Published author in Russian.

46 poems written in Russian and published on the LITPROM literary portal through its editorial board, 2019–2025. Stress, rhythm and register are the material I work in.

Published author in English as well.

53 poems written in English, published in my own ATUONA gallery, Dec 2024 – Sep 2026 — so I hear the difference between a native line and a translated one from both sides.

Seven years of professional work in Russian, where one word changes the meaning.

Seven years as Deputy CEO and Chief Legal Officer of a Russian public-sector e-government operator: drafting and negotiating contracts and regulatory positions, presenting to boards and regulators.

Spoken audio, mixed and measured.

My automated film pipeline locks each narration line to its clip, ducks music under the voice and normalises the mix to broadcast loudness (–16 LUFS; the latest film measured –15.7). 8 films published, each render verified before release.

Written justifications that another reviewer can check.

I built a scoring rubric and an AI judge, then replayed 51 rejected items: 20 were wrong, caught before release. I also keep a public record of 22 written incident analyses — what happened, why, and the named pattern — the same discipline an evaluation rationale needs.

Language technology, built and used by real learners.

EspaLuz, a bilingual Spanish–English AI tutor on WhatsApp and Telegram, with voice in and voice out and per-family memory. Selected by micro1 for the Titan Proton human-data project.

Operational Co-Founder — OmniBazaar, decentralised e-commerce · 2024–2025

HOW I WORK

I operate an AI-native development environment where specialized agents handle much of the implementation execution. I own requirements, architecture, orchestration, evaluation, deployment, monitoring and production decisions. I judge a new data source by running it through the live gate before integrating it: the source added in August cleared 76% against ~21% for the rest of the fleet. I

write the failure down and name it — clients can read how I debug before they hire me.

AVAILABLE FOR

- Russian–English evaluation of AI speech and text: naturalness, stress, register
- Written rationales and rubrics another reviewer can check
- Bilingual content and localisation where register matters

LANGUAGE & AUDIO TOOLKIT

Russian: native — stress, intonation, rhythm, register (legal, literary, conversational) · English: fluent, daily professional and literary use · Audio: FFmpeg, voice/music mixing, loudness normalisation (LUFS), frame-accurate timing · Evaluation: rubric design, written rationales, review of AI-generated text and speech output.

EARLIER

Deputy CEO & Chief Legal Officer — JSC “E-GOV OPERATOR” · 2011–2018

Seven years at board level on large-scale public-sector digital transformation: IT, legal and compliance in a heavily regulated environment.

Deputy CEO, Business Development — Fundery LLC (fintech) · 2017–2018

EDUCATION

MA Social Psychology — Penza State University · 2018. Blockchain Regulation — MGIMO, Moscow · 2017. Presidential Program for Executive Management — RANEPA · 2015. Polkadot Blockchain Academy, PBA-X Wave 3 · 2025. How-To-DAO Cohort · 2025. Anthropic Academy — Claude Certification Program · 2026, in progress. Internship — Nyskapingsparken Innovation Park, Bergen, Norway.
