

ELENA REVICHEVA

Creative Technologist

generative AI film, image and audio, from concept to published work

aipa@aideazz.xyz · +507 616 66 716 · [LinkedIn](#) · [GitHub](#) · aideazz.xyz/portfolio

Full-time or contract · Remote worldwide or on-site in Panama City · UTC-5

SUMMARY

I design intelligent systems and the experience around them — from the agents that run a business to the films they make.

I direct generative models the way a producer directs a crew: concept and narrative, shot design, model choice, edit, mix and release. I also built the machinery — an automated pipeline that turns my own written universe (99 published poems) into finished films — so I can budget it, scale it and keep it running. 8 films are published. Seven years as a Deputy CEO before this means creative work delivered against a brief and a budget.

EXPERIENCE

Founder & AI Product and Solutions Lead — [Aldeazz.xyz](#) · Panama / Remote · 2025–Present

Founder-led AI lab. I design, build and operate its production AI systems end to end — the architect, the reviewer and the on-call.

ATUONA AI Film Studio — 8 published films

atuona.xyz/aifilmstudio

Each film is made end to end by a pipeline I built: poems from my own ATUONA universe (99 published, in Russian and English) become shots generated per type after a model bake-off; narration is locked to each clip, music is ducked under the voice and the mix is normalised to broadcast loudness; every render is verified before release. The latest, *Crimson Escape*, runs 3:36 from 16 newly generated shots at -15.7 LUFS.

Generative production bot — a dozen models, one director

aideazz.xyz/ai-ops-wiki.html

A Telegram production bot that drives a dozen video and a dozen image models, with an LLM acting as director and a pre-render budget guard. When that guard could never fire — it read a price field the vendor never sends — I found it, fixed it, and published the postmortem.

AI Visibility Audit API — public product

aideazz.xyz/api

Live scoring for how discoverable a site is to ChatGPT, Perplexity and Claude, not only Google. Same GEO/AEO engine that scores my own hub 100/100. Production floor from Oracle logs, rounded down: 420+ audits, 14,000+ signals, 210+ sites, median 85. Each check returns the fix and why it matters (34 why / 4 fix on a live stripe.com run).

Fail-closed publishing and a five-provider LLM chain

aideazz.xyz/ai-ops-wiki.html

My agents' model calls go through an ordered five-provider fallback (OpenAI, Gemini, Groq, Grok, Claude): a live probe on 28 Sep 2026 had four answering while Claude had no credits. When Groq deprecated the models I used, the fleet kept serving — a config change, not an outage. The daily publisher will not print a number it cannot trace; if the model decorated the facts, the day stayed silent. A 600+ test eval suite (unit, integration, golden-set) runs in under a minute.

Operational Co-Founder — OmniBazaar, decentralised e-commerce · 2024–2025

HOW I WORK

I operate an AI-native development environment where specialized agents handle much of the implementation execution. I own requirements, architecture, orchestration, evaluation, deployment, monitoring and production decisions. I judge a new data source by

running it through the live gate before integrating it: the source added in August cleared 72% against ~6% for the rest of the fleet. I write the failure down and name it — clients can read how I debug before they hire me.

AVAILABLE FOR

- Generative video and image production: concept, shot design, model choice, iteration
- Automated edit, narration, mix and publishing pipelines
- Creative world-building and writing in English and Russian
- Multi-model production on a budget, with cost guards and fallbacks

STACK

Video: Wan, Grok Imagine, Kling, Runway, Luma · Image: Flux, Seedream, Ideogram · Audio: TTS narration, mixing, loudness (LUFS) · FFmpeg · LLM direction (DeepSeek, GPT) · TypeScript · Python · Telegram bot orchestration · Oracle Cloud (OCI)

EARLIER

Deputy CEO & Chief Legal Officer — JSC “E-GOV OPERATOR” · 2011–2018

Seven years at board level on large-scale public-sector digital transformation: IT, legal and compliance in a heavily regulated environment.

Deputy CEO, Business Development — Fundery LLC (fintech) · 2017–2018

EDUCATION

MA Social Psychology — Penza State University · 2018. Blockchain Regulation — MGIMO, Moscow · 2017. Presidential Program for Executive Management — RANEPA · 2015. Polkadot Blockchain Academy, PBA-X Wave 3 · 2025. How-To-DAO Cohort · 2025. Anthropic Academy — Claude Certification Program · 2026, in progress. Internship — Nyskapingsparken Innovation Park, Bergen, Norway.
