

ELENA REVICHEVA

AI Operations & Growth Lead

AI agents, automation and measured business outcomes

aipa@aideazz.xyz · +507 616 66 716 · LinkedIn · GitHub · aideazz.xyz/portfolio

Full-time or contract · Remote worldwide or on-site in Panama City · UTC-5

SUMMARY

I design intelligent systems and the experience around them — from the agents that run a business to the films they make.

Seven years as Deputy CEO and Chief Legal Officer running large digital-transformation programs at board level, and Deputy CEO for business development at a fintech. Since May 2025 I have built and run AI systems in production — agents, workflow automation, a CRM growth loop and a public API, 15 long-running services on one cloud VM — and I own them from problem to measured result. My agents learn from recorded human decisions, and I measure every change against those decisions before it ships.

EXPERIENCE

Founder & AI Product and Solutions Lead — Aideazz.xyz · Panama / Remote · 2025–Present

Founder-led AI lab. I design, build and operate its production AI systems end to end — the architect, the reviewer and the on-call.

AI evaluation & feedback loop — changes tested before release

aideazz.xyz/ai-ops-wiki.html

My job-search agent learns every hour from the decisions I record in the CRM. Each decision is stored with the posting it was made on and replayed as an offline evaluation set before a judge change ships. Hard constraints such as location and pay are enforced by deterministic rules, not left to the model. A proposed RAG upgrade scored lower on that evaluation set, so I kept it disabled rather than ship a more complex, less accurate system.

Approved-send growth loop — HubSpot + Resend

The acquisition loop I run in production: research, qualify, draft, one human tap, send, then delivery and open written back to the CRM. 1,900+ deals, 989 contacts, 1,411 companies attributed by the agents. Send is fail-closed: if a PDF or signed .docx fails to load, the email is refused so it cannot claim an attachment it did not carry.

Fail-closed publishing and a five-provider LLM chain

aideazz.xyz/ai-ops-wiki.html

Every model call in the fleet has an ordered fallback (Anthropic, OpenAI, Gemini, Grok, Groq). When Groq deprecated the models I used, the fleet kept serving — a config change, not an outage. The daily publisher will not print a number it cannot trace; if the model decorated the facts, the day stayed silent. A 130-test eval harness (unit, integration, golden-set) runs in under a minute at \$0 API cost.

Operational Co-Founder — OmniBazaar, decentralised e-commerce · 2024–2025

HOW I WORK

I operate an AI-native development environment where specialized agents handle much of the implementation execution. I own requirements, architecture, orchestration, evaluation, deployment, monitoring and production decisions. I judge a new data source by running it through the live gate before integrating it: the source added in August cleared 76% against ~21% for the rest of the fleet. I write the failure down and name it — clients can read how I debug before they hire me.

AVAILABLE FOR

- AI agents and workflow automation that clear an operational bottleneck, owned to a measured result
- Evals and feedback loops: offline replay on real decisions before a change ships

- Agent context and memory design (RAG + pgvector in production), MCP and API integrations
- Delivery ownership, evidenced: 7 years of vendor coordination, operational delivery and board-level cost and performance reporting in regulated environments

STACK

Python · TypeScript · Node.js · FastAPI · LangGraph · RAG (pgvector) · HubSpot · Make · Resend · Playwright · PostgreSQL · Docker · Oracle Cloud (OCI)

EARLIER

Deputy CEO & Chief Legal Officer — JSC “E-GOV OPERATOR” · 2011–2018

Seven years at board level on large-scale public-sector digital transformation: IT, legal and compliance in a heavily regulated environment.

Deputy CEO, Business Development — Fundery LLC (fintech) · 2017–2018

EDUCATION

MA Social Psychology — Penza State University · 2018. Blockchain Regulation — MGIMO, Moscow · 2017. Presidential Program for Executive Management — RANEPa · 2015. Polkadot Blockchain Academy, PBA-X Wave 3 · 2025. How-To-DAO Cohort · 2025. Anthropic Academy — Claude Certification Program · 2026, in progress. Internship — Nyskapingsparken Innovation Park, Bergen, Norway.
